EDUCATION

California State University, Long Beach | Long Beach, CA

Expected Graduation May 2023

B.S. in Computer Science

GPA: 3.70

Coursework: Object-Oriented Application Development (Java), Object-Oriented Programming & Data Structures (Python), Algorithms

PROJECTS

Mega War (C++)

December 2021

- Developed an altered version of the card game War that plays through the game while displaying the stats of the game until there is one winner.
- Mega War can be played with as many players and as many decks while utilizing inheritance which is applied to the card classes.

React Movies (React)

November 2021

- A React application that allows users to search for movies and gives them information about the movie and cast.
- Uses The Movie Database API that allows users to find and learn information about the movie and authorize a log in system.

Ani-Bops (JavaScript, CSS, php, HTML, MySQL)

August 2021 – Present

- Developed a full-stack web application to help users find their favorite anime theme songs on Spotify just by searching up the anime title.
- Utilizes the Jikan API to allow users to find any anime title and the Spotify API to give users the link to the desired song.

Dungeon Master (Java)

February 2021 – April 2021

- Developed a Java console game where player traverses a map fighting monsters all the while searching the map to reach the next level.
- Applies Java design patterns and class relationships to write more efficient code and provide solutions to reoccurring problems.

SKILLS

Programming Languages

- *Proficient:* Python, Java, HTML, CSS
- *Prior experience:* C++, SQL, php, JavaScript

Frameworks & Libraries

- React, Bootstrap, Pandas

Honors/Awards

President's Honor List (Spring 2020, Fall 2020, Spring 2021)

- Certificate of Excellence through High Scholastic Achievement, 3.75 GPA or higher
